skiing

EXPERIENCE

UX/UI Design / BlueCat

Sep. 2019 - Dec. 2019

- Participated in Agile storyboarding sessions with development teams to provide UX insight over multiple sprints.
- Developed style guides and design system libraries in Sketch to be used company wide when creating new products and interfaces.
- Collaborated with project managers and user interface designers to translate feature requirements and process flows into intuitive, easy-to-use solutions.

Learning Developer / Seneca cFLEX

Jan. 2019 - Apr. 2019

- Populated web pages with multimedia elements for online courses using HTML and CSS in Wordpress.
- Redesigned and developed faculty resource website by creating high-fidelity prototypes in Figma.

Graphic Design Intern / Engine 8 Media

Mar. 2017 - Jun. 2017

- Maintained and user tested the Engine 8 Media website.

PROJECTS

Online Portfolio / Side Project

Jan. 2020

- Created an online portfolio of past work from scratch using HTML/CSS/JS while considering a clean and responsive design.

Developer / StarterHacks 2020, EngHack 2019

Jan. 2020 & Jun. 2019

- Developed web application using front-end tools to allow for user creation and form completion in a browser.
- Implemented image scanning API using Java in Android Studio for a mobile budgeting app.

EDUCATION

Systems Design Engineering

September 2018 - Present

- University of Waterloo class of 2023.
